

APPLIQUED FLAGS, BANNERS, AND TABLECOVERS

For over 81 years, Crowdmaster™ has been making high-quality flags, banners, and tablecoers for museums, sports stadiums, schools, local civic organizations, and individuals.

The term “Applique” refers to the process of layering colors of fabric onto the background and sewing them into place. This type of method allows for many different sizes and styles.

Whether you are looking for a small boat flag or a large specialty banner to hang on a wall, Crowdmaster™ will be there to assist you from start to finish.

Appliqued flags and banner are created with premium quality fabrics, like **SolarMax™** nylon, **Poly-Pro Twill™**, or **Woolfelt™**. Crowdmaster™ uses SolarMax™ nylon for outdoor and indoor applications, Poly-Pro Twill™ and Woolfelt™ for indoor and limited outdoor applications.

SolarMax™ nylon flags have designs reading correct on the front side and reverse (backwards) on the back side. **SolarMax™** nylon, **Poly-Pro Twill™**, and **Woolfelt™** banner designs read correctly on the front side only. Standard finishing is canvas/poly heading and brass grommets on flags (rope heading and thimbles for sizes 8'x12' and larger). Banners have grommets across the top. Many additional finishing options are available for flags and banners (ie. sewn borders, backliners, windvents, weighted bottoms for indoor applications, non-tangle rod patches, etc.), please inquire.

Pricing is determined by many factors (ie. size, materials, number of appliqued elements, finishing, etc.), so submitting a concept design will be the first step in determining a cost. Please include size, colors, usage (indoor/outdoor), method of hanging, quantity, product type (flag or banner), consturction (1 sided or 2-sided), date needed, artwork availability, ect. Unfortunately some designs might not be able to be appliqued (ie. letter height restrictions, multicolored detailed images, half-tones, etc.). Crowdmaster™ will look at your design and suggest some potential options (ie. inserting printed seals through our *Digital Vivichrome* or *Vivichrome* silk screening methods).

LARGE APPLIQUED DISPLAY BANNERS

For the past 35 years, we have been assisting many professional sports teams, museums, fraternal organizations, and corporate clients with their large outdoor/indoor banner projects. Whether you are hanging them in between pillars, in a lobby area, or on the side of the building, our experienced staff will provide you with a banner that will meet your needs.

APPLIQUED TABLECOVERS, RUNNERS, AND BACKDROPS.

Transform your design to one of Crowdmaster’s quality-made tablecover, runner, or backdrop. Perfect for seminars, trade shows, recruiting, charity events, etc. We use the same quality fabrics and techniques listed above and position your design in the lower 30” drop section of the tablecover or runner or in the upper 1/3 area for most backdrops.

APPLIQUED PROCESSIONAL AND LEAD BANNERS.

Crowdmaster™ has been providing appliqued processional and lead bannes for years and our attention to detail is unmatched. Using the SolarMax™ nylon or PolyPro Twill™, we can transform your design into a great procession or marching piece. Many finishing options are available.

All print orders subject to quantity variations. 1 - 5 pieces will receive exact amount, 6 - 11 pieces +/- 1 piece, 12 plus +/- 10%
All orders based on "Terms and Conditions of Sale". Copy available upon request.
