

## DIGITAL VIVICHROME PRINTED TABLECOVERS (P)

Wouldn't it be great if a potential client came up to your booth or display, and the first thing he/she said was, "What a great tablecover that is! Where did you get it?". We can help you achieve that "wow-factor" at any event with our *Digital Vivichrome™* woven display cloth tablecovers!

Digitally dyed in full-color on a premium, seamless durable wrinkle-resistant woven display cloth. In this digital process, each tablecover starts from white fabric, so it's up to you how and where you want the colors and design. You can "step-and-repeat" an image, like the items pictured below, or even create separate designs for the front "drop" section and the top. Each tablecover is professionally finished-sewn on all edges, resulting in a beautiful appearance.

The fabric is Certified to meet NFPA-701 small scale requirements and is fully washable.
