FLAGPOLE REPLACEMENT PARTS

INTERNAL FLAGPOLE PARTS

A selection of common replacement parts, made in the U.S.A., for your flagpole so that you can continue to fly your flag. Don't see what you are looking for? Just give us a call.

The retaining ring assembly is constructed of 1/8" stainless steel aircraft cable with 1" diameter nylon balls, stainless steel yokes and copper crimps. You may also add the stainless steel connecting link. Larger diameter assemblies are available, please inquire.

The counterweight is constructed from 2" diameter steel, heavily coated with plastisol with plated eyebolt on each end.

EXTERNAL FLAGPOLE PARTS

The truck is normally either 'fixed' or 'revolving'. The most common is the fixed. This style slips over the top of the pole and utilize 3 stainless steel set screws to secure it. The revolving uses a threaded spindle to attach to your pole.

Revolving

Cast aluminum construction with cast nylon sheave and tapped at top for 1/2" threaded rod. Rotates on 26 stainless steel balls. Used on flagpoles with up to 3 1/2" O.D. top. Suggested halyard is 1/4" or 5/16".

SPINDLE THREAD SIZE	ITEM #	EACH
1 1/4"	TRK-9600	\$ 83.00

OUTRIGGER FLAGPOLE PARTS

To help curtail the flag from wrapping around the pole, this stainless steel non-tangle rod has a vinyl clamp at the bottom to attach to your flag. Available in various lengths.

It is normally suggested to add a non-tangle rod patch to your flag so that the clamp has more to grip. This non-tangle rod is not meant for vertical poles or home use.
